Generative AI Engineer with 2+ years shipping production **LLM systems, RAG pipelines, and multi-agent / MCP tooling**. Rated **Above Expectations** (highest rating) across all performance reviews.

EXPERIENCE

- ▷ **Intern** – Think41, Bangalore Jun 2024 – Jan 2025
 - Designed & built **MUCAI**, a multi-persona conversational AI bot + web app: configurable STT/TTS (**Deepgram, Cartesia, OpenAI, ElevenLabs, Sarvam, Gemini**), system-prompt-driven persona switching per SKU/use-case, unified multi-provider integration layer. Scaled to **100+ personas** and **1,000+ concurrent sessions** for **JPMC** use-cases, on-prem hosted, client-aware via conversation history, and screen-aware via real-time frame processing.
- ▷ **SDE-I**, Think41 – client Atomicwork (Seed A, \$25M) Feb 2025 – Mar 2026
 - Led a **5-engineer Integration Team**, shipping **20+ third-party integrations** (HRMS: Workday, Keka, Rippling; ticketing; telecom). Designed & built a **Third-Party MCP Server Service** hosting custom-built MCP servers, scaling to **20+ MCP servers with zero downtime**.
- ▷ **SDE-II**, Think41 – client Harvey.ai (\$15.5B valuation) Apr 2026 – Present
 - Built end-to-end **RAG pipeline** for document-grounded legal research, scaling to **100K+ documents** across **300+ tenants** (100+ users/tenant): semantic chunking, **OpenAI text-embedding-3-large**, **pgvector** hybrid BM25 + vector retrieval, re-ranking, low-latency streaming inference. Built **import pipeline** syncing docs from third-party apps, on-demand + scheduled sync, batched for scale.

PROJECTS

- ▷ **AutoInterviewer** – *Python, Django, Temporal, pgvector, Next.js, LiveKit, Terraform, AWS* 
 - Turns a resume into a tailored interview plan in **5s**; scaled to **1,000 concurrent interviews** with **300ms** live-audio round-trip latency and **35%** interview-to-offer conversion lift for pilot recruiters.
- ▷ **nantex – LaTeX Live-Preview CLI & MCP Server** – *Python, SSE, MCP, PyPI* 
 - Live-compiles **.tex** to PDF in seconds with no local LaTeX install; compiled **1,000+ page-equivalents** in **5 minutes** across users. Published to **PyPI**; adopted by **30+** friends to compile their own resumes.

TECHNICAL SKILLS

Languages & Backend: Python, TypeScript, Java, SQL; FastAPI, Next.js, React.js, Django

GenAI & LLM Frameworks: LangChain, LangGraph, LlamaIndex, FastMCP, Anthropic SDK, OpenAI SDK, Hugging Face Transformers

RAG & Retrieval: Retrieval-Augmented Generation, hybrid search (BM25 + dense), re-ranking, semantic chunking; Vector DBs: Pinecone, Qdrant, pgvector, FAISS

Agentic AI & Orchestration: Multi-agent systems, Model Context Protocol (MCP), Google ADK, tool use / function calling, ReAct, Temporal durable workflows

Evaluation, Safety & Infra: LangSmith, Ragas, LLM-as-a-judge, offline evals, PII redaction, prompt-injection defense; **AWS Bedrock, Azure OpenAI, GCP Vertex AI**, Docker, Kubernetes, CI/CD

EDUCATION, CERTIFICATIONS & ADDITIONAL

Bachelor of Engineering – Computer Science & Engineering (CSE), 2020 – 2024 – Shivamogga, Karnataka. **Open Source:** Founded **Forge41** – github.com/NandishNaik01.

Anthropic Academy (Jul 2026): MCP · Agent Skills · Claude Code in Action · Building with the Claude API
